

Meeting Agenda

Long Yue

Date: July 03, 2023 Time: 10:00 AM Location: Online

Topic 1: What I have done so far

Project name: Development and Evaluation of Machine Learning-Based Spam Filtering Models: An Improvement Study of Algorithm Performance.

Data resource,

Data pre-process,

Model training,

User frontend interface,

Project innovation.

Topic 2: Any questions

What comment can you give me about my project at this moment?

How many words should write in the dissertation?

What suggestions can you give me about the project dissertation?

Topic 3: What I am planning to do next

Keep implementing and improving the model, model evaluation and test, and start to write the dissertation.

Topic 4: Any other topic

Not yet have another topic
